PROFESSIONAL SUMMARY

Web Developer with **2+ years of experience** in building responsive, user-friendly, and scalable web applications using **Angular, Next.js, React.js, JavaScript, TypeScript, HTML, CSS, Tailwind CSS, Bootstrap, and WordPress**. Experienced in REST API integration, authentication, and developing business applications with clean and maintainable code. Passionate about learning new technologies and delivering reliable web solutions.

PROFESSIONAL EXPERIENCE

Xmedia Solution, Web Developer

05/2024 – Present | Chennai

- Developed and maintained web applications using Angular, Next.js, FastAPI, and WordPress.
- Collaborated with the team on the Dinamani project, developing UI components, integrating APIs, and fixing bugs.
- Independently handled the Boom.ai project from development to deployment.
- Built responsive UI, integrated REST APIs, implemented authentication, and CRUD operations.
- Worked with Git/GitLab and followed Agile development practices.

SKILLS

Frameworks: Angular, React.js, Next.js

Frontend: HTML, CSS, Bootstrap, Tailwind CSS

Programming: JavaScript, TypeScript

CMS: WordPress

AI: Claude Code, Antigravity

PROJECTS

BE25 Student Interview Practice Platform, Tech Stack: Angular, Tailwind, FastAPI, WebSockets, RxJS, JWT

- Engineered a complete Company Module dashboard enabling HR teams to configure job roles, interview templates, and evaluation rubrics, supported by secure FastAPI endpoints and JWT-based access control.
- Engineered a complete Company Module dashboard enabling HR teams to configure job roles, interview templates, and evaluation rubrics, supported by secure FastAPI endpoints and JWT-based access control.
- Built the Student Module that delivers AI-guided voice interviews with sub-250 ms feedback using WebSockets and RxJS for live audio streaming, transcript generation, and instant coaching insights.
- Implemented FastAPI services to maintain practice history, skill-gap insights, and personalized learning paths, helping students review past sessions and plan upcoming practice rounds.

Next.js Ticket Booking Portal, Tech Stack: Next.js, TypeScript, Tailwind, Node.js Modules: Partner Management, Theatre Admin, Booki

- Led development of a multi-role ticket-booking platform where partners and theatre admins manage shows, seat layouts, pricing, and schedules through secure role-based API workflows.
- Built complete booking flows—including seat selection, add-ons, and confirmation—using a responsive Tailwind interface with real-time availability updates for both web and mobile users.
- Engineered advanced authentication flows that dynamically switch between partner and theatre-admin privileges, ensuring accurate data visibility and protected platform operations.
- Developed detailed seat-layout management features with gap-aware rendering, booking validation, and post-purchase workflows connected to backend analytics and reporting systems.

Hospital Management System (HMS), Tech Stack: Angular 16, FastAPI, Gitlab, Bootstrap

- Built a complete hospital management platform with secure token based authentication and role-based dashboards for doctors, nurses, and administrators.
- Implemented efficient patient and staff data management features, enabling smooth record handling, updates, and access based on user roles.
- Designed an intuitive and responsive interface using Bootstrap to ensure a seamless and user-friendly experience across all devices.

Static Websites, Tech Stack: HTML, CSS, JavaScript, Bootstrap, Gitlab

- Designed and developed professional static websites for businesses to present products and services effectively.
- Created responsive, mobile-friendly layouts using HTML, CSS, and Bootstrap.
- Added interactive elements and dynamic behavior using JavaScript to enhance overall user engagement.

EDUCATION

B.Sc Mathematics

07/2018 – 05/2021 | Madras University, Chennai
